Dear Mr. Asgian:

WASTE DISCHARGE REQUIREMENTS - PUENTE HILLS LANDFILL, WHITTIER, CA (FILE NO. 57-220)

Reference is made to our letter dated September 16, 2005, indicating that this Regional Board intended to revise the Waste Discharge Requirements (WDRs) for the Puente Hills Landfill (Regional Board Order No. 90-046, adopted March 26, 1990, Order No. 91-035, adopted March 4, 1991, Order No. 93-070, adopted November 1, 1993, Order No. 94-103, adopted September 26, 1994, and Order No. 99-059, adopted March 26, 1999) because they no longer accurately reflect current site conditions. This letter is to inform you that the anticipated date that the revised WDRs will be considered has been changed. It is now anticipated that the WDRs will be considered by this Regional Board at a public meeting to be held on December 1, 2005, beginning at 9:00 am., at the Metropolitan Water District of Southern California, 700 North Alameda Street, Los Angeles, CA, 90013.

You are reminded that an electronic copy of the WDRs can be accessed at http://www.swrcb.ca.gov/rwqcb4/html/permits/all_tentative_permits.html. A hard copy of these tentative requirements can be furnished upon request.

If you have any questions, please call me at (213) 620-6119.

Sincerely,
